THE PRO GRADE

EXTRA LONG DOWNDRAFT TABLES

NEW PRODUCT

▲DT-2000

FEATURES

- Special design for two people could work together side by side at this Extra Long Down draft workstation.
- Two 1 HP motors could work independent and draw vast amount of air into the two stages filter system without creating too much noise.
- Steel top with rubber grommets to hold and protect working piece.

Shop vacuum or dust collector easily cleans the metal tray that is full of dust. With two outlets.

Industrial toggle and NVR switch is positioned in front for operator convenience.

FEATURES

- These tables are popular with small to medium size shops that use these to allow each sander operation.
- The downdraft table provides a higher level of safety and convenience by collecting dust at the source.
- Special design for heavy and finish sanding, routing and chop saw applications.
- These units work to collect dust that otherwise would go into the air.
- Industrial strength steel cabinet with three foldable dust curtains help to preventing the tiny dust from the operating polishing.
- Steel top with rubber grommets to hold and protect working piece.
- Low noise.
