Fast, precise and outstanding value

CMC3 1200 Machine VIDEO

https://www.youtube.com/watch?v=GZdsluf8n8Q https://www.youtube.com/watch?v=qssjDJrM3jM

Also available with a 4^{th} axis rotation of the workpiece to all intermediate angle **MODEL CMC4 1200**

https://www.youtube.com/watch?v=TB3JiSB-T4A

High productivity:

- Typically 5 times faster than traditional Copy Routers.
- Precise programmed positioning and easy programming of different cutouts
- Auto programmed rotation of profiles to +90 / 0 / -90 degree

Fast, precise and outstanding value

CMC3-1200

Aluminium Window CNC Copy Routing Machine **Key Features:**

- 1. Advanced industrial CNC 3-axis profile machining system.
- 2. Suitable for Aluminium, PVC, and other light metal material processing;
- 3. The machine completes milling, drilling, grooving and other multi-functions precisely at one time.
- 4. Worktable with pneumatic auto rotation positioning of profiles-90°/0°/+90°
- 5. High precision ball screws to ensure smooth motion, positioning and processing in high precision in Y and Z axis. Fast, accurate X positioning via rack and pinion.
- 6. The operating platform: Linux. High resolution, easy programming
- 7. The latest version of the system: 4-core 4G memory, fast & smooth operation.
- 8. Additional 1500mm Support table for special long profile processing.
- 9. 400mm height safety cover auto up/down with work sequence.

Fast, precise and outstanding value

DESIGN IN DETAIL:

The best drives and guides

Ball screw Y and Z and rack and pinion X drives

Helical rack and pinion in X ensures rack teeth are always engaged fully. This delivers smooth acceleration and deceleration, increased accuracy with significantly reduced vibration.

Twin widely spaced linear guides for precise and quiet positioning in all Axis and safety fence travel

Quality electrics and pneumatics

Delta Servo drives and motors. Schneider electrics and powerful cooling fans.

Centralised lubrication of the Axis guides – timed and automatic!

Powerful 3.5 KW Electro Spindle Programmed RPM to 18,000 to suit cutters and materials

Cover removed in this picture >

Fast, precise and outstanding value

Clever and sturdy end-stop

Workpiece stop automatically 'zeros' at commencement of cutting. You then have 1500mm of offset capacity to handle your oversize workpieces.

Simple, effective, quick!

Fast, precise and outstanding value

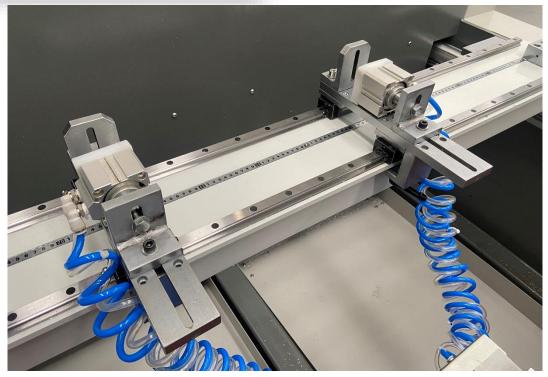

Extra sturdy clamps too!

Mounted on a precise and very sturdy steel fabricated Beam and positioning very easily thanks to the THK twin guides.

Fast, precise and outstanding value

Auto rotation of the workpiece – easy to +90 / 0 and -90

Fast, precise pneumatic workpiece rotation – from a program or from the 'manual' program on the touchscreen

Fast, precise and outstanding value

Simple programming, clear graphics.

16" High resolution 'touchscreen'

Easy positioning of screen to suit operator.

Programming Video:

https://www.youtube.com/watch?v=tM8eSYQGizk

Recall a program, Manual setting screen, Easy parameter setting etc.'

Crisp graphics, intuitive 'touchscreen' simplicity

Fast, precise and outstanding value

Helpful Programming aids - templates for shapes and hole spacings – simply select and set dimensions – Easier, Faster, Smarter

Fast, precise and outstanding value

Built in Safety

400mm high Barrier screen with auto pneumatic action: up for machining, down for load/unload

Capacity in a small footprint

Compact Machine Size

2150*1450*2100mm

Small things you will appreciate.

Auto spray mist. Tool kit, air gun, Slide out Swarf collection trays, Powerful cooling fans

All features and product specifications subject to change without notice

Fast, precise and outstanding value

Power	Three phase
Working Pressure	0.6-0.8MPA
Total Power of Machine	6.5 KW
Air consumption	100L/min
Router speed	Variable to18000 rpm
Main Spindle Power	3.5KW
X-axis Travel	1200MM
X axis feed rate	0-30M/min
Y-axis Travel	320MM
Y axis feed rate	0-30M/min
Z-axis Travel	300MM
Z axis feed rate	0-30M/min
Machine Size	2150*1450*2100mm
Weight	800KG
Processing range (+90)	110*110mm
Processing range (0 degree)	170*120mm
Processing range (-90)	110*110mm
Rotated angle	Inside and outside 90°

Switching Mode Power Supply	Delta / Schneider
Servo motor & Drives	Delta (Taiwan)
Low voltage electrical apparatus	Schneider
Cable	Shielding / high flexibility
Spindle motor	JST ER32Collet
Cylinder	AirTAC (Taiwan)
