## MODEL DC-1500T PORTABLE DUST EXTRACTOR

### *Specifications*

- Strong sheet metal duct from fan to bag drum instead of plastic hose.
- 125mm (5") diameter main inlet to fan cowling.
- Plastic adaptor on inlet with 2 x 4" inlets.
- 2hp Single phase motor with switch, cord and plug.
- Sheet steel construction of base, cyclone, fan cowling and connecting duct from fan to cyclone drum.
- Four strong wheel-type castors on base for mobility.
- Needle felt top filter bag to allow free travel of air and retain dust to 5 microns.
- Disposable bottom collection bag of thick clear plastic.
- Motor on fan mounted low down on base of machine, to prevent unit tipping over when being moved.
- Air throughput of approximately 1300cfm.
- Nett weight of complete machine – 47kgs.
